Description: Patients A&E Attendance - Assault

Response

We require the gender of the patient (M or F), the date that they attended due to assault (dd/mm/yyyy) and their age. Age can either be numerical to the nearest year (preferred) or in age bands ("0-10", "11-17", "18-30", "31-50", "51+"), we can also accept date of birth.

To calculate the level of assault-related injury in England and Wales we also require the total number of attendances for any reason in the year of interest, i.e. 2019.

Please also include the names of hospitals providing assault data.

The numbers of assaults are as follows for Calendar year 2019
